

Chapitre 15 :
**Chî Shîncu, la boule
à sept étoiles**

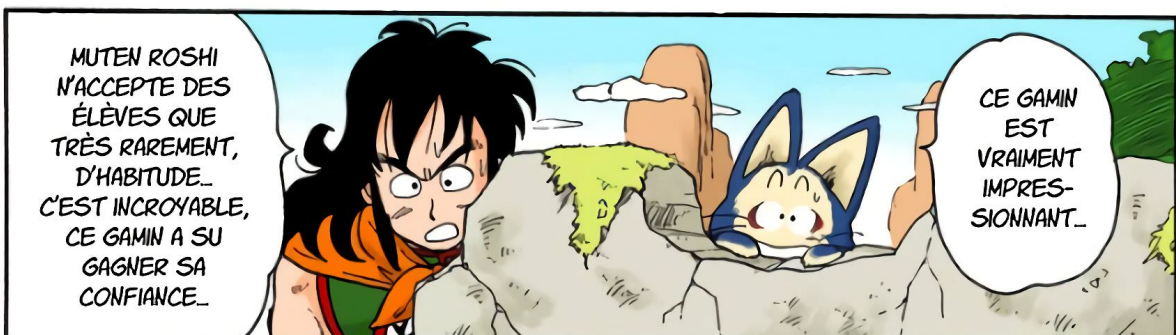

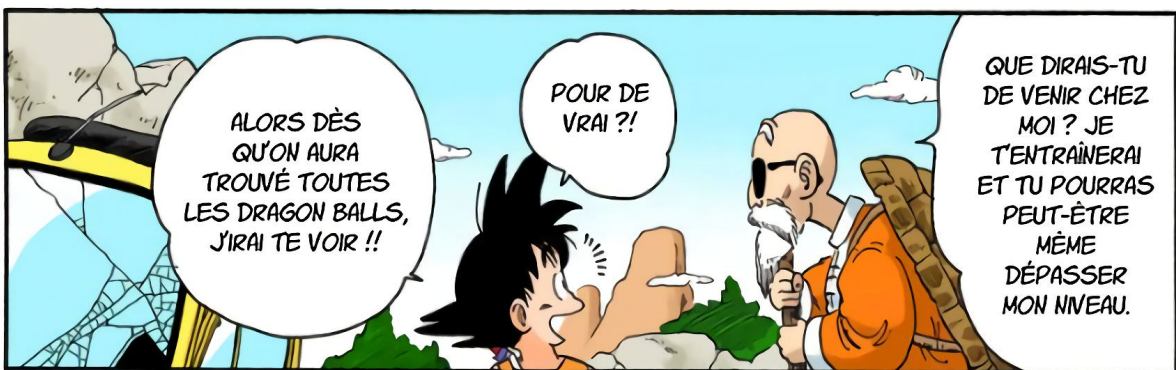

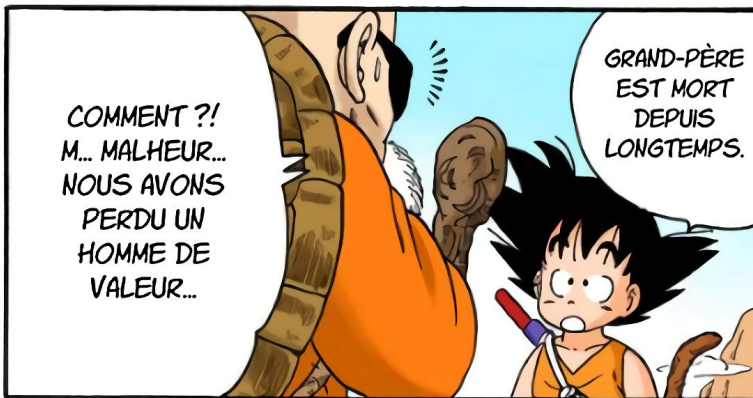

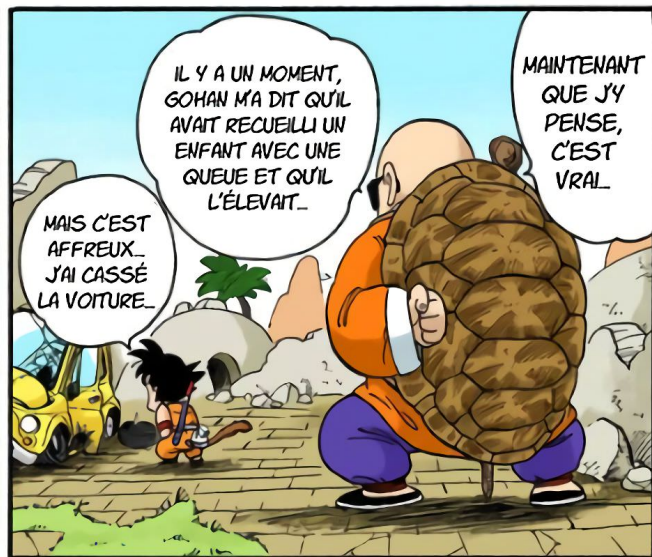

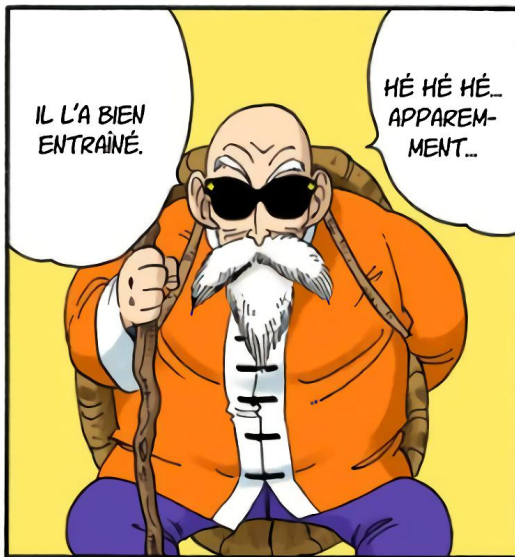

Muten Roshi était venu éteindre le feu du mont Fry Pan et pour ce faire, il utilisa sa technique formidable : le Kamé Hamé Ha. Mais sa puissance était telle que la montagne en fut soufflée. Vont-ils retrouver la 6^e Dragon Ball qui était dans le château ?

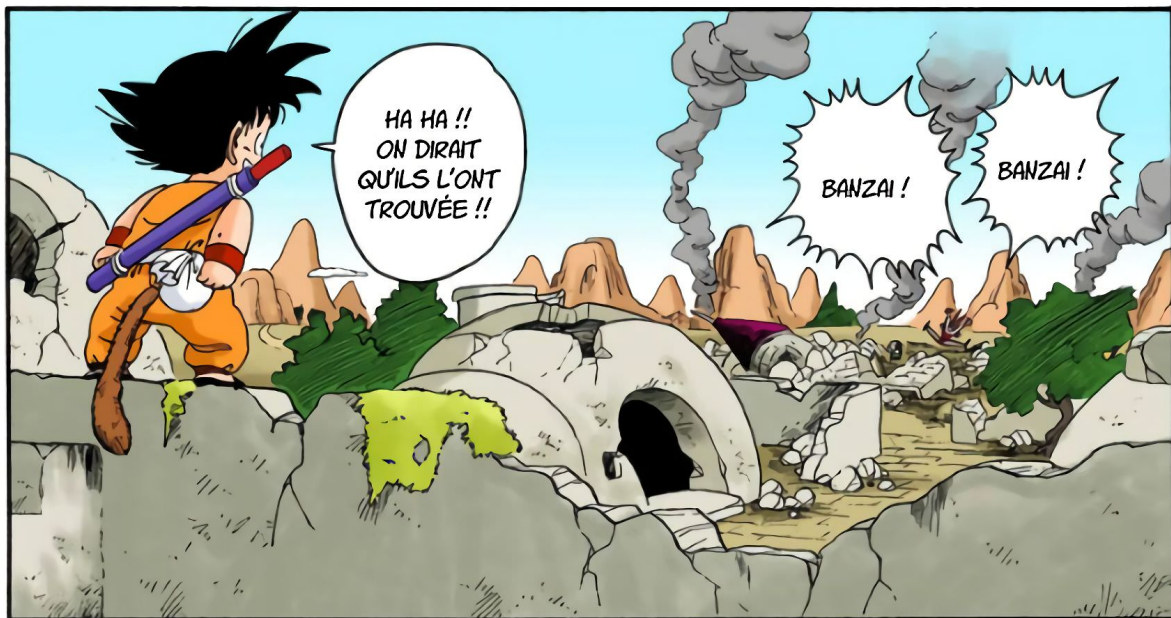

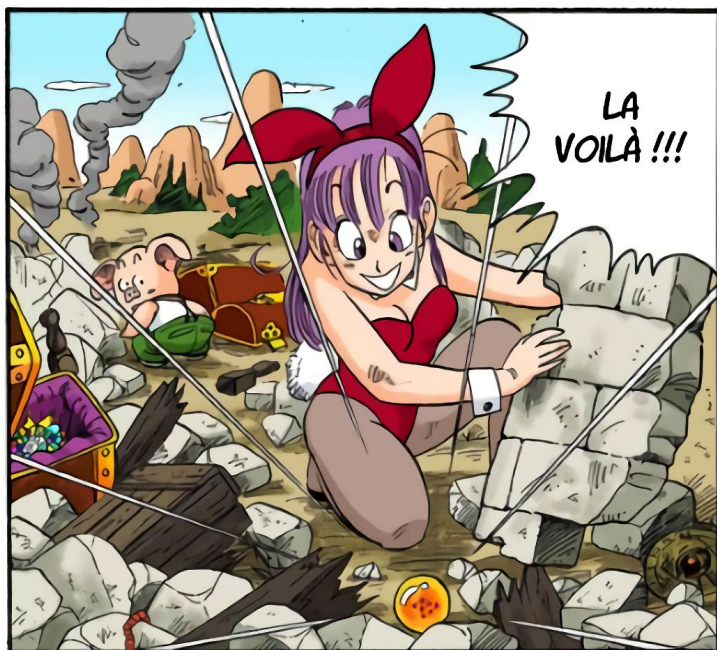

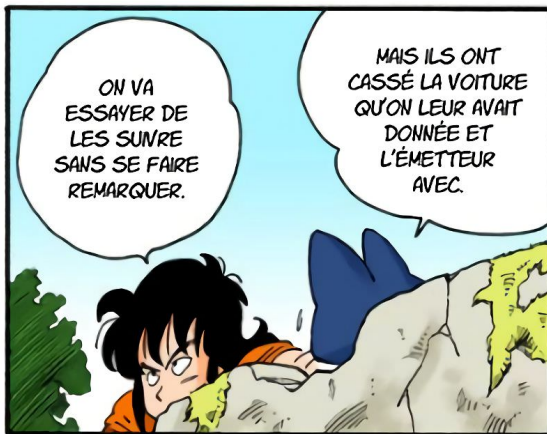

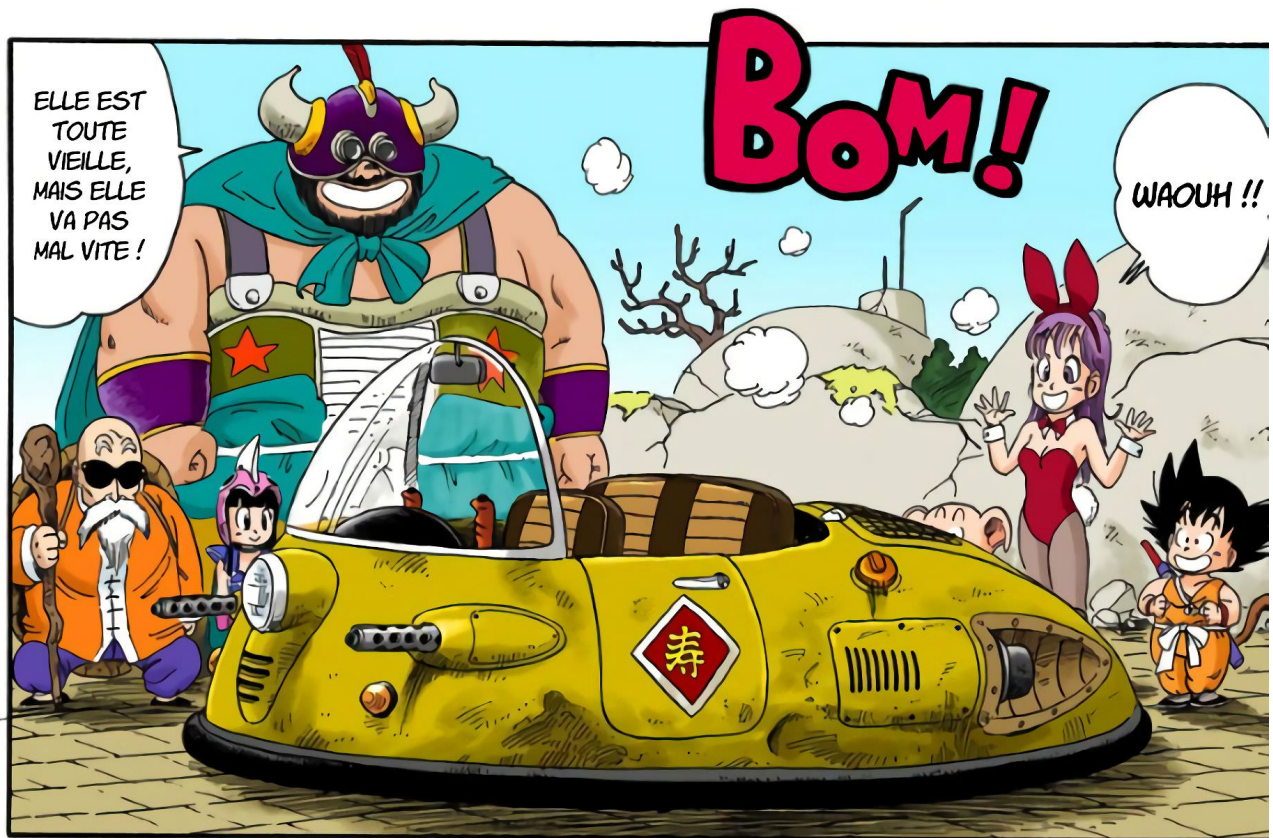

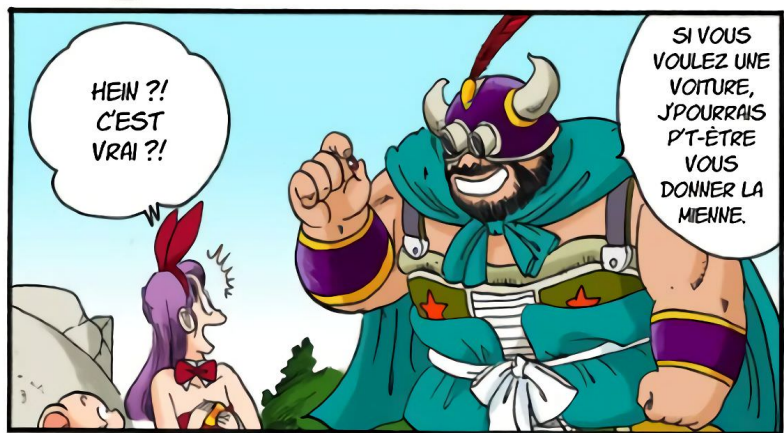

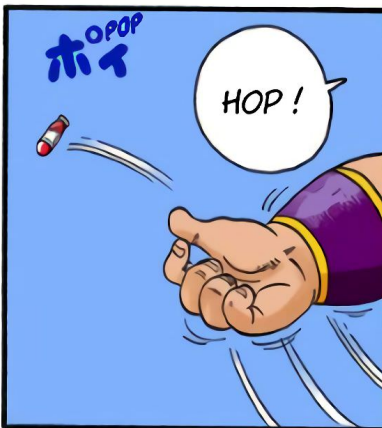

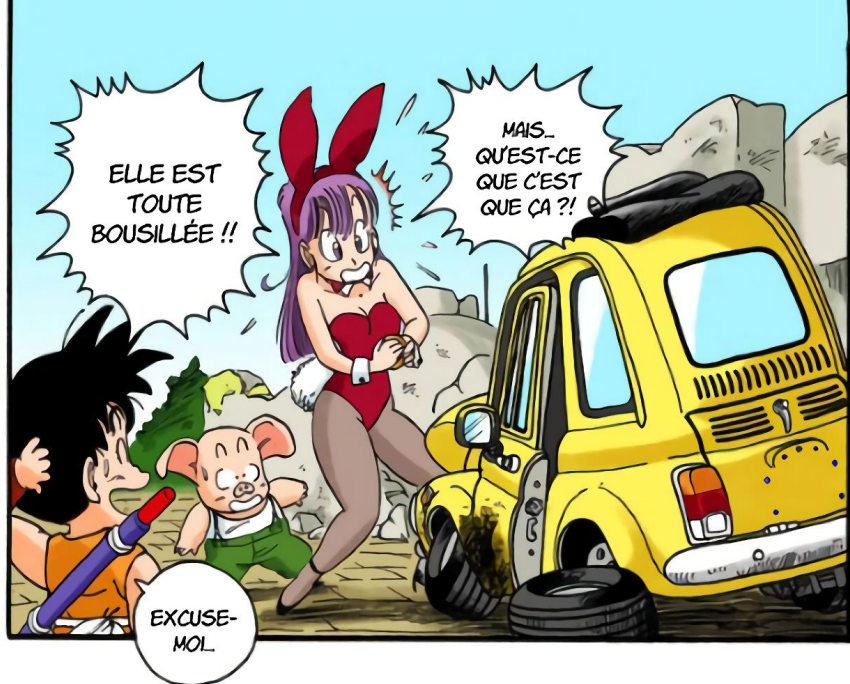

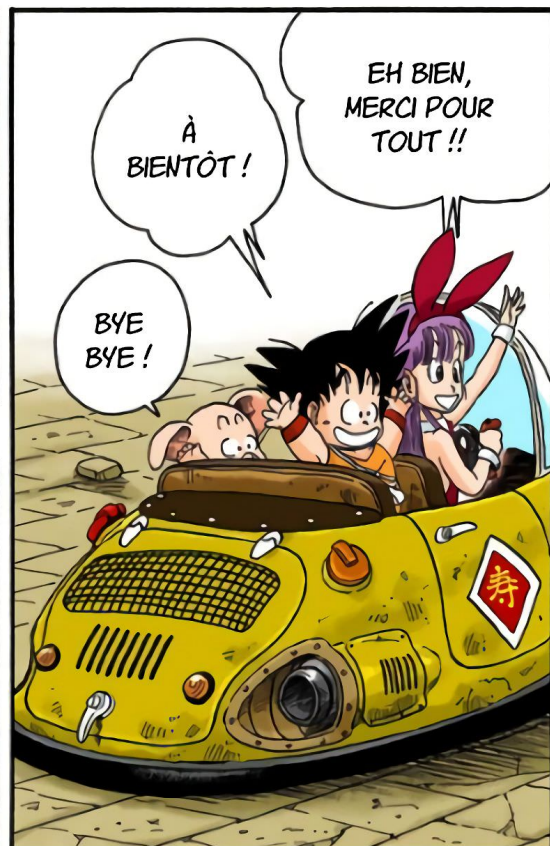

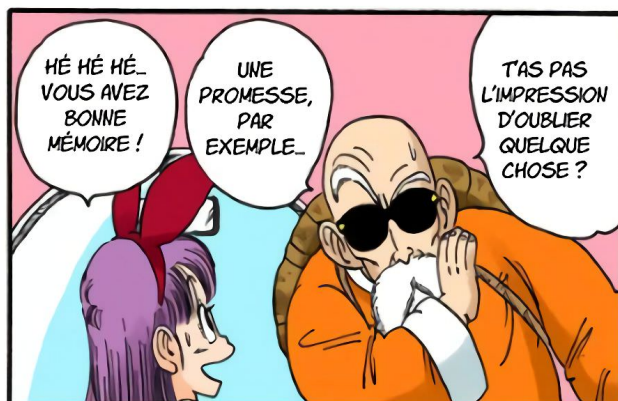

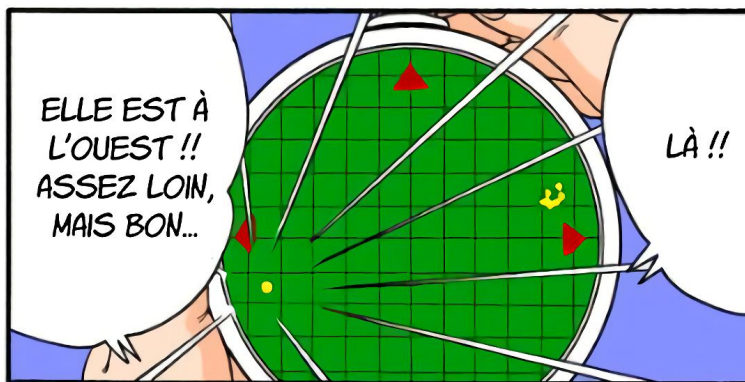

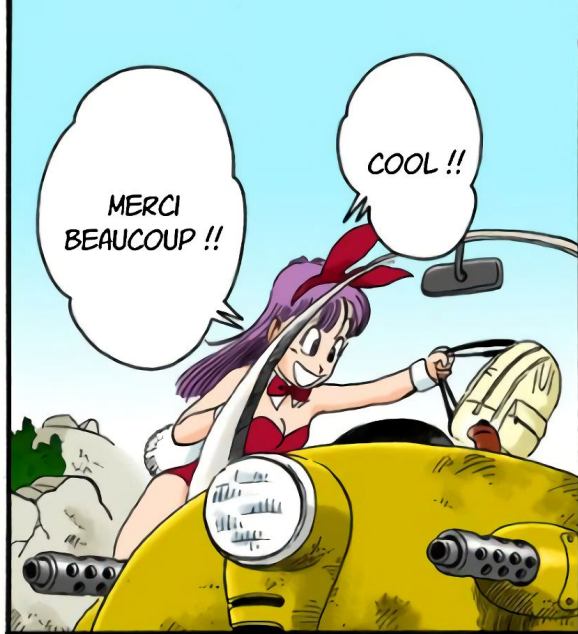

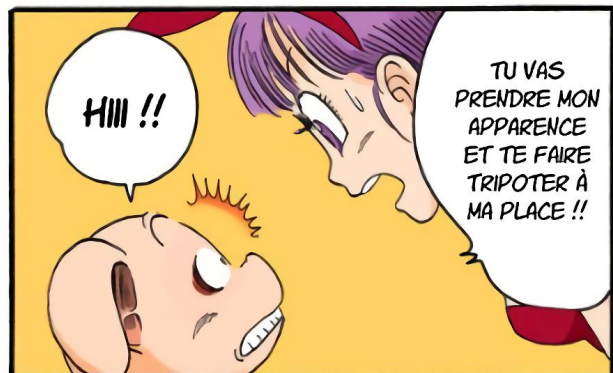

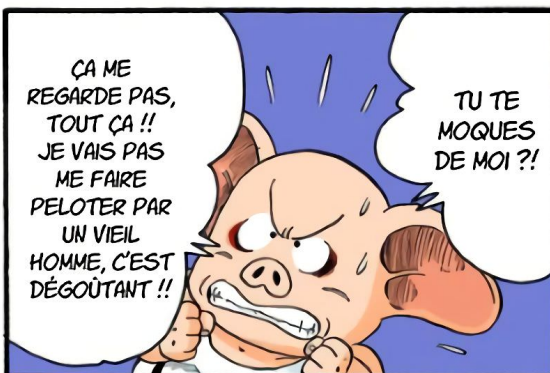

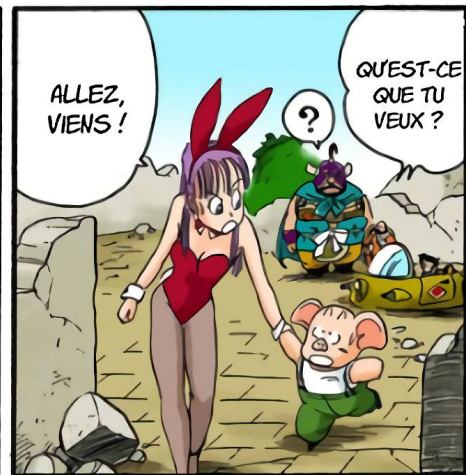

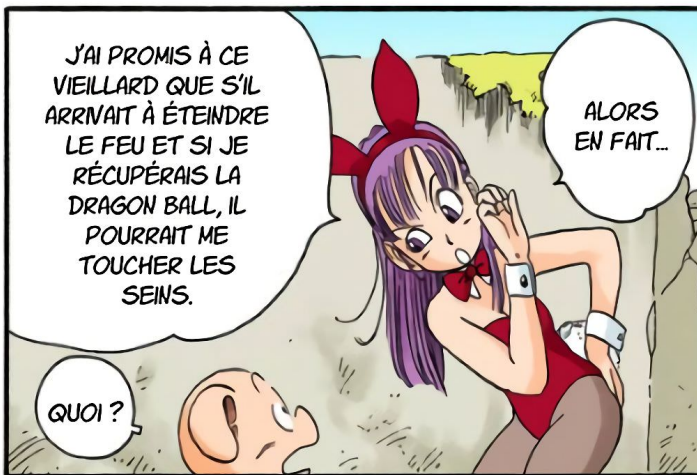

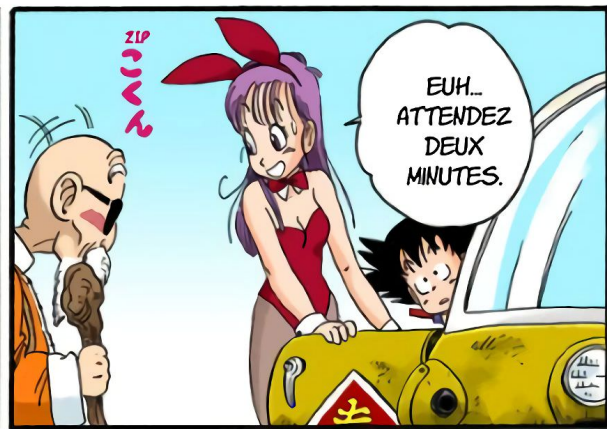

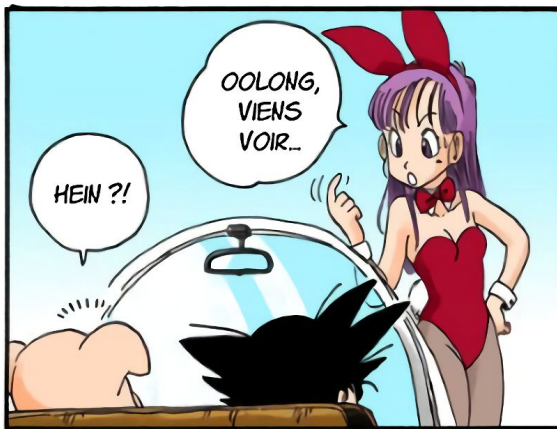

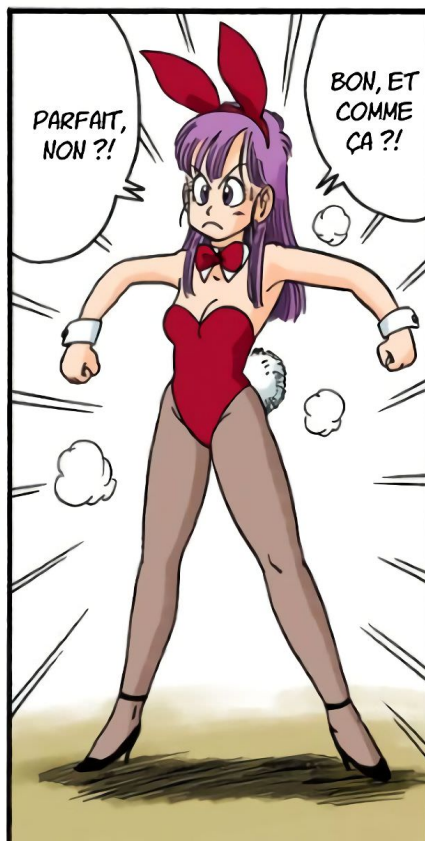

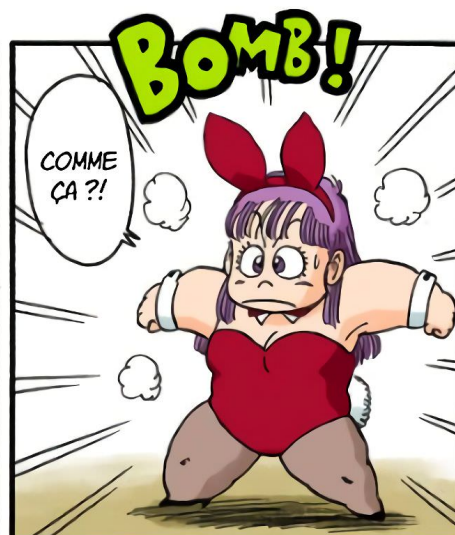

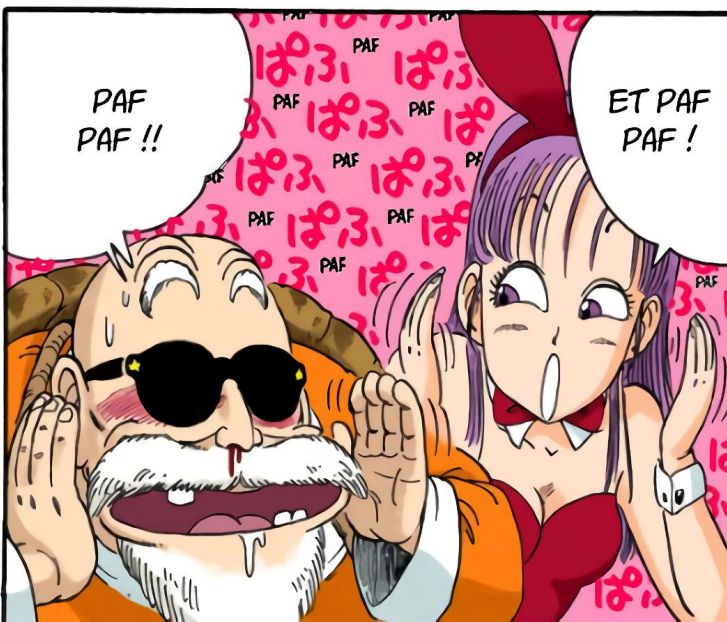

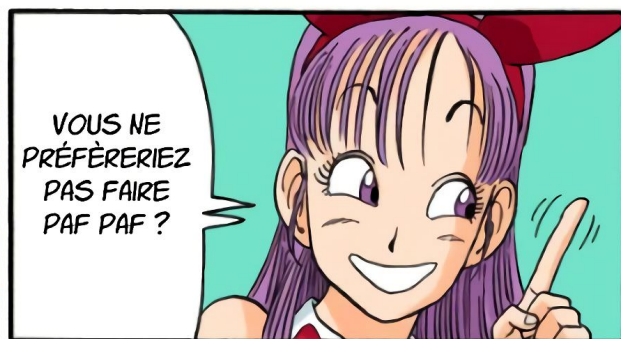

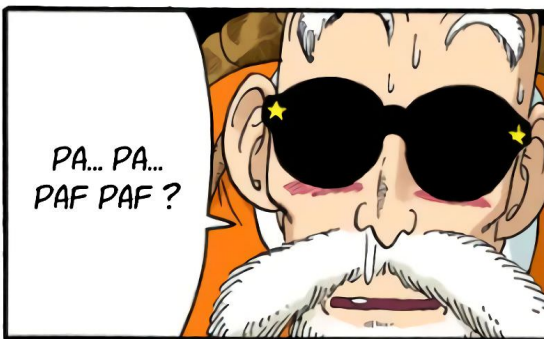

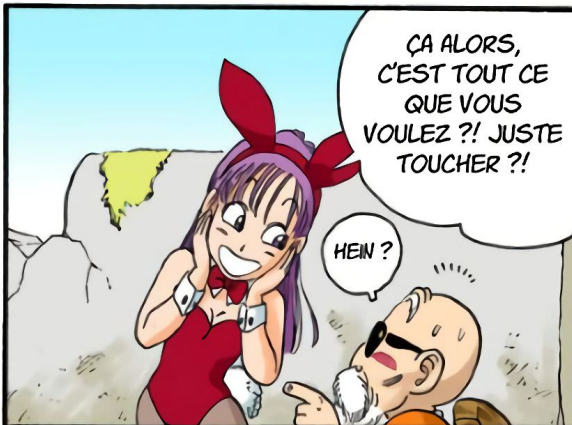

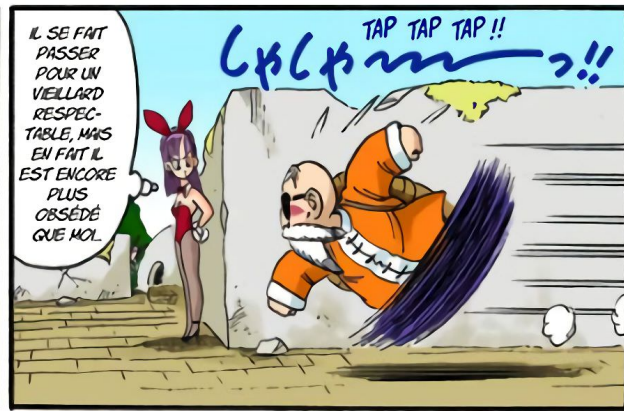

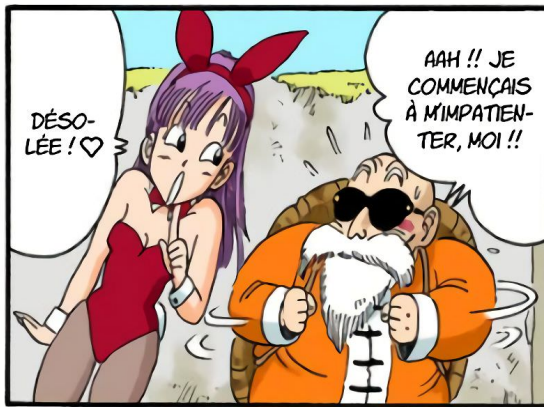

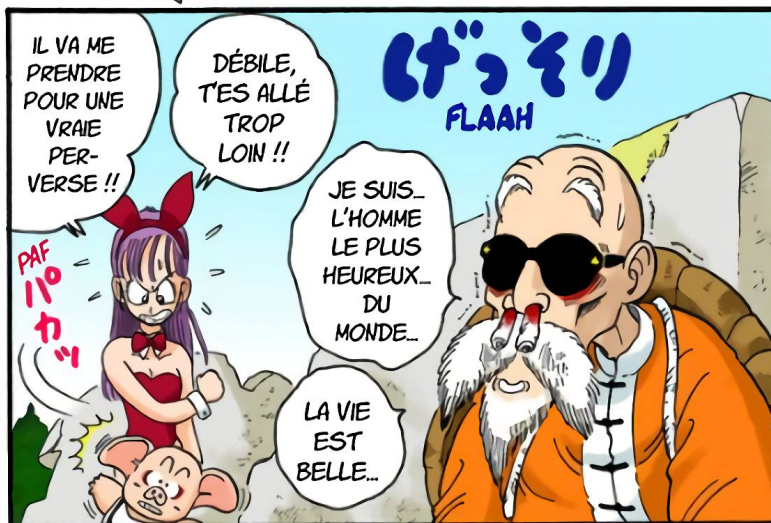

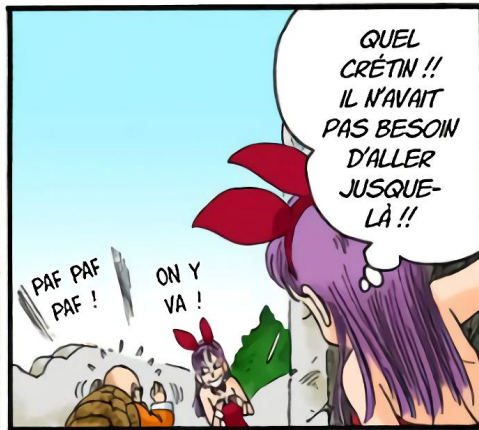

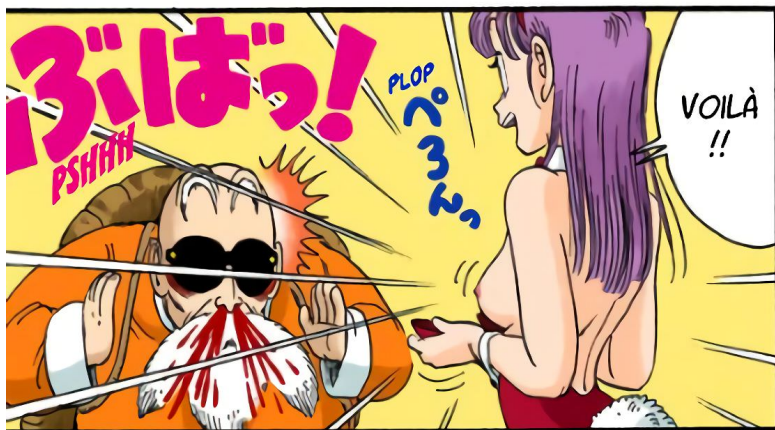

* En japonais, Chichi l'appelle "Goku-sa". "Sa" est une variante de "san" (suffixe de politesse) qui entre dans un registre de langage très rustique. D'où le choix de rendre cette nuance en français par l'emploi de l'article défini, typiquement paysan.
